Business Systems Consultant/ Sr. Operations Analyst - Phoenix, AZ

Major global consumer financial services provider seeks a Business Systems to work with SVP in charge of establishing its rapidly growing and highly profitable Lending Management organization based in Phoenix. Specific responsibilities include:

- Provide in-depth statistical and operations analysis to Lending Management team with insights driving key decisions on Lending Management policy.
- Work closely with Lending Management and MIS to design, develop and implement key reports monitoring a set of key operations and credit policy metrics.
- Collaborate with Lending Management and MIS Applications teams to identify area areas where automation could provide significant productivity lift. Help the Applications team design/implement software tools to improve productivity and process consistency.
- Serve as key liaison between the MIS, “six-sigma”, Change Management and Lending management teams in introducing best practices and streamline operations processes.

Requirements:

- MS in statistics, OR, industrial engineering or equivalent with very strong focus on math.
- 5 years of SAS programming experience.
- Proficiency with presentation tools including Powerpoint and Visio.
- Strong Communications skills
- Ability to solve business problems by designing effective, and easy to follow business processes.
- Very strong team work and leadership skills

Preferred Qualifications:

- Previous experience with the financial services or insurance industries highly desired.
- Project management experience highly desired
- Experience in operations, and risk management highly desired.

Salary: \$90-100k
