Sr. Analyst-Chicago

Leading national retailer, based in suburban Chicago, seeks a Sr. Analyst, Business Analysis to be responsible for designing and conducting complex statistical and business analysis. This entails analysis of both store and customer level credit data. This position will interact with business partners and provide guidance in the decision-making process.

Responsibilities include:

- Build, validate and maintain statistical models.
- Design statistically sound tests, including setting up proper control groups.
- Evaluate the results of credit programs and projects, including monitoring profitability
- Take business user's specifications and determine the optimal solution.
- Present findings to business partners and stakeholders.
- Must be able to meet tight deadlines to support quick business decisions.
- Develop a complete knowledge of all Credit and related data sources.
- Continuously strive to improve productivity, technical skills and access to new data.

Requirements:

- 2-5 years experience in credit card industry or related industry
- Graduate degree in statistics, math, economics or other related/quantitative field.
- Expertise in SAS/Base, SAS/Stats. and SAS/Macro
- Solid knowledge of logistic and linear regression modeling as well as Decision Tree or CHAID techniques.
- Expertise in SQL, UNIX and Excel
- Strong oral and written communication skills
- Strong teamwork skills
- Strong problem solving and analysis skills
- Strong project management skills

Salary: \$75 – 95k
