

Lr 014-14483

Risk Analyst- Greensboro, NC

Seeking an experienced Risk Analyst with student loan experience. This position is responsible for analyzing, measuring and monitoring portfolios including insurance products for student loans and new asset classes (non home equity) with an insurer based in North Carolina. Responsibilities include: recommending product structures to maximize product profitability and customer satisfaction, developing and running SAS models, projecting claim rates, developing and producing portfolio analysis reports, and general research and analysis related to products. Applicants must have strong general business skills – oral and written communication, computer proficiency - from 2-4 years of experience and meet the following strict requirements:

- Hold a Masters degree in Economics (strongly preferred) or Bachelors degree in Mathematics, Economics or Business with a math concentration.
- Demonstrated ability to analyze portfolio data and develop presentations including recommendations.
- SAS software programming ability.
- Experience with PC spreadsheets and statistical software.
- Previous experience analyzing characteristics of consumer loan portfolios including projecting performance based on current and historical data strongly preferred.

Salary: \$70-90k
