Manager of Credit Policy -Chicago, IL

International bank seeks Manager of Credit Policy to lead a team bringing a data-driven, analytical aptitude and approach to a wide variety of business issues and challenges in the consumer lending portfolio, as well as cross business initiatives.

Responsibilities include:

Directing a modeling team to design, develop and implement a wide variety of scoring / statistical models in support of all aspects of the consumer lending credit life cycle (targeting, risk, acquisition, account management, etc.).

Oversight on the use of advanced statistical procedures and techniques (logistic and other forms of regression analysis, decision tree, cluster and other segmentation approaches, time series, survival analysis, etc.) as they pertain to attaining specific business objectives

Providing focused research (as needed) into statistical techniques and approaches

Serving as a statistical/modeling resource on cross functional project teams

Providing fact-based, actionable recommendations to senior management

Developing and providing training to analysts in the team

Requirements

5+ years proven statistical analysis and/or MIS experience, or equivalent. Strong knowledge of consumer finance / retail credit preferred. Bachelor degree in mathematics, statistics, finance, economics, related field or equivalent experience. Master degree (or higher) preferred. Proficient in Microsoft Office as well as pertinent mainframe systems and statistical software packages. Strong programming skills including knowledge of statistical programs (i.e. SAS) and/or advanced database programs. Well-developed organizational, analytical, problem-solving, project management, coaching / training, and verbal and written communication skills are required.

Salary: \$100 -120k (depending upon experience) plus bonus
