Director of Analytics, Insight & Innovation, Los Angeles

Major international insurer seeks Director of Analytics for their new and growing internal analytics consulting group. This team leverages advanced statistical and financial modeling techniques to gain deep understanding of customer behavior and is responsible for data driven strategic insight, enabling robust profitable growth in the business.

The Director is expected to:

- Proactively identify business problems requiring quantitative analysis for resolution – selected current projects include: customer lifetime value, price elasticity, predictive loss valuation, response and ROI for Direct Marketing campaigns
- Bring cross-industry analytical methodologies to leverage within insurance
- Develop the analytics team to achieve greater depth and breadth in analytical strategic skills and contributions
- Create greater visibility for team capabilities

Skills and experience required:

- Advanced technical degree in quantitative discipline and/or MBA with quantitative focus
- 6+ years experience in analytical leadership role(s)
- Ability to critique advanced modeling analysis results at strategic and technical levels
- Leadership – people and subject
- Ability to function at multiple levels of thinking – depth & breadth of knowledge
- Passion to recruit and develop a top notch team of quantitative problem solvers
- Hunger to gain understanding of best practices in similar functions across industries
- Outstanding communication, influencing, and project management skills

Salary ranges from \$130,000 to \$190,000, commensurate with skills and experience.
