

OM 206-14487

Statistical Analysis Director- Costa Mesa, CA

A global leader in providing information solutions to organizations and consumers, seeks Statistical Analyst Director to join their team.

Manage analysts that perform the following functions:

- Extraction of appropriate data from the mainframe under a well defined timeline.
- Cleansing, manipulation and interpretation of the data.
- Conducting extensive analytics that include the following:
 - Model score validations
 - Decision Tree analytics
 - Portfolio management & profit optimization
 - Segmentation and trend analysis
 - Univariate and multivariate analysis
- Analytics focus on the full B2B and B2C customer lifecycle and include proprietary and custom acquisition, response, fraud and attrition models, portfolio optimization that includes trigger analytics and delinquency/collections.

Requirements:

- Previous experience with statistical analytics in a B2B and B2C environment is preferred although it is anticipated that the incumbent could transfer skills from another area such as the consumer segment.
- Must understand the credit lifecycle.
- Exposure to scoring models is a plus.
- Previous experience managing a team in a fast paced environment should be well defined.
- Educational background: Undergraduate degree in, statistics or similar discipline with Masters preferred.
- A minimum of 10 years experience in a similar position is required with at least 5 years involving credit lifecycle analytics preferably with commercial data.
- At least 5 years of experience with SAS is required. Other software knowledge that is preferred includes SQL, Excel and Knowledge Seeker.
