Senior Risk Analyst-Indianapolis

As a Senior Risk Analyst with the Education Finance Risk Management group you will work on a team responsible for the mitigation of fraud and operational risks associated with the student lending portfolio. You will work on the development of a comprehensive fraud prevention strategy encompassing the entire lifecycle of a loan. In addition, focus will be given to developing a quantitative tool to provide meaningful risk metrics related to operational and fraud trends. Expectations for this individual include, but are not limited to:

- The statistical evaluation of vendor created fraud tools so as to estimate potential benefit to Bank
- Develop, communicate and implement optimal fraud strategies (including rules, cutoffs, policies, operational flows, etc.)
- Ability to identify and quantify key risk indicators in an operational process and formulate MIS that accurately tracks these indicators
- Interpreting large amounts of complex data to formulate concise conclusions regarding underlying dynamics and trends of fraud
- Construction of senior-level management presentations on research and strategy initiatives, impacts and trends

Qualifications:

- Bachelors in Statistics, Economics, Operations Research or related quantitative field (Masters preferred).
- Strong SAS skills.
- Experience with extracting large amounts of data from a centralized repository.
- 5+ years experience in financial services.
- 3-5 years experience in Risk function.
- Strong interpersonal, presentation and communication skills.

Salary: \$70-100k
